### **Indiana State Treasurer Richard Mourdock Addresses the National Association of State 9-1-1 Administrators**

*Treasurer gives opening remarks during association's fall meeting in Indianapolis*

INDIANAPOLIS (October 29, 2008) – State Treasurer Richard Mourdock, Chairman of the Indiana Wireless Enhanced 9-1-1 Advisory Board (Wireless Board), addressed the National Association of State 9-1-1 Administrators (NASNA) during their fall meeting here in Indianapolis.

“As the Chairman of the Wireless Board, I felt privileged to give the opening remarks to the members of the National Association of State 9-1-1 Administrators and welcome them to the City of Indianapolis,” explained Treasurer Mourdock. “These professionals work every day to ensure that emergency services are delivered to individuals when in need, and I personally have the upmost respect for them.”

NASNA’s purpose is to encourage the implementation and the maintenance of 9-1-1 emergency telephone systems in the ever evolving world of communications throughout the country.

In Indiana, the Wireless Board is responsible for the oversight of Indiana’s 9-1-1 (IN9-1-1) network, which routes all wireless emergency 9-1-1 calls made to the nearest Public Safety Answering Point (PSAP). The PSAP is responsible for notifying the local emergency authorities and services.

“IN9-1-1 network is an international model for wireless emergency communications,” stated Treasurer Mourdock.

To learn more about the IN9-1-1 network, please visit [www.in911.net](http://www.in911.net), or contact Ken Lowden, Indiana Wireless Enhanced 9-1-1 Advisory Board’s Executive Director, at (317)232-6386 or [klowden@in911.net](mailto:klowden@in911.net).
